Rob is a recent addition to the GSSC Coaching Staff after being pursued for a number of years. The team is seeking hard working and experienced players who have support from parents who understand the commitment to a player's individual development with long-term goals of winning on the 11-a-side field and not just the mini-field. Goalies who are committed to the position are welcome. ### GS Boys U11 (1999)

The U11 Boys have two teams who are moving from Mini-Soccer to 11-a-side in 2010. Both teams welcome any player who has playing experience to join our teams who have been together for the past 3 years. Both the Red & Black teams have the complete support of the Club with Professional Academy Staff training the teams as it is important to our Club to have two competitive teams at the U11 age group which at some point in time in the future will be combined. At the moment it is important to develop our player's necessary fundamental skills in order to play the game appropriately and understand how to train to win.

### **GS Boys U12 (1998) Red Team**

The U12 Red team is coached by Pro Academy Staff Coach Elvis Azevedo a Benfica fan who is committed to teaching the players to play possession based soccer a philosophy of the Club itself. 'Winning is important but not if it compromises the development of the individual player' says Azevedo. We welcome any player who has the support of their parents to long-term goals in the game and feels they can have an impact to improve the quality of play. The team played extremely well in the outdoor season but are actively seeking players who can play up front who can score or in the midfield to create and one centre-back who can man-mark. Coach Azevedo has worked so well with the development of these player's in mini-soccer that 5 players who could play U11 this past summer played U12. 'Having lost a number of games 1-0, this team could have finished better if we had held onto the players who were promoted to the U12 team, but again the importance is the individual player and what is best for them. I agree with the philosophy of the Club 100% and if we can develop 5 players who can move on then we can do it again especially how the boys were complimented by so many on how they played possession soccer rather than the typical kick and run.'

### **GS Boys BU13 (1997)**

The Boys U13 Coach Bobby Randhawa was unanimously chosen as the recipient of the 2009 'Boys Coach of the Year' Award for his team's outstanding style of soccer on the field built around his and the Club's philosophy of possession based soccer. Bobby played for the Toronto Lynx in USL 'A' League and understands the commitment to long player development. 'I have been fortunate to have a professional career and I enjoy the opportunity to work with young players who have their parents support to understand winning will come in time but young players need to be able to do the fundamentals consistently and that is why I Coach here at Glen Shields who has the philosophy and a proven track record of moving players onto the next level.' The team finished 2<sup>nd</sup> in the L4P division as a result of truly committing to the program of player development to possession soccer at U11 where the team struggled against the kick and run soccer of its opponents. Today this team is one of the most entertaining teams to watch within the Glen Shields SC as they can compete with any team in York Region and the GTA. The team has 5 U12 players on the squad with NO individual egos but a commitment to team performance based

on individual technical ability. The team welcomes any player whose parents support the philosophy of the Club to long-player development.
